

Salvimar Goemon

Blade material: Tempered 420 B stainless steel – 75 Rockwell hardness

Handle material: 30% glass loaded Nylon

Blade total length, max width and max thickness (mm): 95 x 25 x 3

Blade usable length (mm): 85

Handle length, max width & max thickness (mm): 87 x 36 x 21

Total length in sheath (mm): 198

Blade type: standard on one side and constant toothed on the other

Sheath material: 30% glass loaded Nylon

Sheath-knife locking system: elastic clip on sheath

Folder-spearo fitting system: belt or elastic Velcro band suitable for arm/calf (NOT included)

Belt-arm-calf use: arm, belt and calf

Shaft straightening hole: yes, hexagonal central to the blade

Shaft unblocking system: yes, long open cut in the grip for best lever

Small line cutter: no

Special solutions: sheath with V profile for easy insertion of the knife. Triangular point of the blade for faster fish finishing and greater resistance. Sheath with correct width of belt passages to position the knife on top of belt weights. Completely dismountable for deep cleaning. Deep cut in the grip for best leverage on shaft for unblocking

Available handle colours: White, Black and Acid Green

Weight of knife and sheath (grams): 140
