

Meandros b32 full complete camo 85

Type: Sling gun

System: Double Circular band

Length (nominal): 85 cm

Length of barrel (measured): 84.8 cm

Length from tip of muzzle to release mechanism shaft connection: 106.5 cm

Length from axle of frontal circular band hole to last notch: 98 cm

Barrel shape & dimensions: Circular section of 32 mm diameter with flat lateral walls

Barrel walls thickness: from 1.5 to 2.1 mm

Barrel material: Aeronautical aluminium alloy anodized in single pieces

Muzzle material: Composite high quality non-recyclable with glass fibre

Muzzle type: Double circular with steel pin for line inferior passage

Shaft guide: Open track integrated with aluminium barrel

Diameter and elongation coefficient of bands: 2 x 14 mm with 3.3 elongation coefficient

Release mechanism material: 100% 316 stainless steel

Release mechanism line holder: Steel, lateral with possible side change (simple unscrewing of Allen key)

Handle & Grip material: Composite high quality non-recyclable with glass

Barrel to handle and barrel to muzzle connection: Plugs with O-rings tested to 10 bar

Interchangeable grip (left and right): Yes, strongly anatomical (also possible a symmetrical cover)

Sternal support: Plastic with V shaped profile for best line of aim

Shaft type and material: 6.5 mm diameter 17.4 ph thermally hardened steel

Special solutions: Larger than normal pipe diameter (32mm), so holding more air and load capabilities for heavier shafts & setups. The pipe side walls are thicker thus making the pipe extremely rigid also comparing it to carbon fibre ones. The handle has an exceptional low profile and is totally rigid with no flex. Unique design and functioning of the patented release mechanism
